Please, when you come back with this form filled out, bring a simple layout of the space and include the fixed items. Like door and window locations. Like fixed locations of plumbing or lighting and any electrical. We will also like to have the ceiling height and if you are going to put a new floor down. This information will save a lot of time.

Don't feel like these measurements have to be exact. They want to be close but when you do this project with Johnson's cabinetry center, we will go out to measure before we place any orders.
